

PODCAST | The most important question

Monday, February 6, 2023

Author(s)

Reshmina William

As the world changes, scientists and policymakers must grapple with increasingly complex, global, and interdisciplinary challenges. AAAS STPF fellow **Alex Loewi** sat down with host and fellow fellow **Reshmina William** to discuss the importance of asking the right questions to tackle these challenges, the role of government in social well-being, and how the National Science Foundation is working on 21st century problems and innovations.

Guest

[Alex Loewi](#); 2021-2023 Executive Branch Fellow at the National Science Foundation

Host

[Reshmina William](#), Ph.D., Civil Engineer; 2022-23 Executive Branch Fellow at the Department of Energy; 2021-22 Judicial Branch Fellow; Twitter: @ReshminaWilliam
